

Muttos

The cabins in Muttos national park

The cabins are open year-round and are for self-catering at a simple but comfortable standard. You yourself chop firewood, light the fire, fetch water, cook, wash up and clean. There is a basic set of cutlery and crockery. There is firewood and a Calor gas stove in all the cabins, as well as payment forms with information about how to pay.

All cabins can be found along Muttosbálges/the Muttos trail. Arvidssonstugan is the only cabin located off the trail, at the north end of the lake Muttosjávrrre.
